Two representatives of Bruce Robinson Electric of Edmonton were also present to explain the technical side of these plans and also to give any general information that they could.

Many ideas were put forth on the best way to organize the project, which it was estimated, would cost between \$15,000 and \$18,000. It was finally decided that the best method would be to form a company with shares tentatively set at a minimum of \$50.00.

A provisional board of directors consisting of J. Sideman, C. Stilling, D. McFetridge, H. Greer and W. D. Wiese was chosen to obtain all the necessary information on the forming of a company and on locker plants in general.

Higher School Grants Likely To Be Sought

Provincial government will likely be asked to increase its grants toward education costs in Alberta.

Edmonton Public School Board Tuesday decided to submit a resolution, urging grants be increased, to the November convention of the Alberta School Trustees' Association.

The board's decision was made at a meeting held Tuesday night at the Commodore Hotel.

The resolution, which was presented at the convention, reads in part:

"The Alberta School Trustees' Association places itself on record as appreciating the value of the Tax Inquiry Commission that the government of the Province of Alberta should share a greater proportion of the total cost of education than it now does, and urges upon the government that this proportion be at least 50 per cent as so unanimously suggested in the many briefs submitted to the Tax Inquiry Commission."

The government some time ago appointed the commission to inquire into taxation imposed by the government and municipalities.

33 PER CENT BORNE

It was estimated that the total cost of education, only 33 per cent is borne by the government for the 1949-50 term.

The school trustees would also ask that the provincial grant be not less than \$4,500,000.

Edmonton Public School Board will also submit another recommendation regarding school grants for approval of the trustees' convention.

The resolution asks that method of computation of grants be reviewed so that there may be automatically adjusted as costs vary from year to year.

At present payment of school grants by the department of education is computed on a flat basis of a stated amount per room according to grade.

EXHIBIT THREE IS UNWIELDY

Murder Hearing Moves To Lane to View Car

An automobile is a pretty bulky exhibit for lawyers to pass from hand to hand in a courtroom.

Mr. Justice C. Ford handled such physical limitations during the murder trial of Mike Zacharak, moving his whole court on an alleyway outside the courtroom to view a Plymouth coupe entered as Exhibit three.

SILENCE ORDERED

As there was doubt as to whether the court reporter could properly record any conversations outside the courtroom, Mr. Justice Ford warned all concerned to "say nothing" while the exhibit was being viewed.

After Sheriff A. Simpson had placed a leg on the exhibit and all had returned to the courtroom, Mr. Justice Ford said that with verbal identification of the car.

Sask. Wins Appeal In Privy Council

Price of City Residential Lots Increased

Price of city-owned land for residential purposes will be increased. City Council Tuesday agreed to increase the price charged for residential lots from 80 per cent to 100 per cent of the assessed value of the lot.

The 80 per cent of assessment price has been in practice for the past several years.

Increases in value for residential property and a decrease in the number of lots served by sewer and water systems are reasons for the increase.

Council also authorized commissioners to make sales of business property at market value.

Commissioner John Hodgson said the city now owns 27 lots in the city centre area, eight on Jasper avenue east of 109 street and five on that avenue west of 109 street.

Aldermen authorized reduction in interest rate charges on unpaid balances of agreement of sale from five to four per cent annually.

Proposal to eliminate payment of commissions to real estate firms on sales of city-owned land was overruled pending consideration of objections from the Edmonton Real Estate Association.

Recommendation of commissioners that the policy of withholding from sale lands in the water main project be approved.

The Commonwealth representatives are invited to speak at Buckingham palace this evening.

Calgary Planning 4th Hospital Vote

CALGARY, Oct. 13.—(CP)—A plebiscite on the principle of hospitalization will be held in Calgary in conjunction with the election on Nov. 24.

Council decided last night. It will be the fourth hospital plebiscite in as many city elections.

Council instructed the hospital board to prepare a compulsory hospitalization plan for presentation to the electorate. Depending on the extent of the plan, it will be voted on by either the ratepayers or all the electors.

The plebiscite follows an Alberta government ruling that a 1948-49 hospital construction grant by the federal and provincial governments will not be available to municipalities guaranteeing ratepayers public hospitalization.

In 1945 ratepayers voted in favor of a new hospital, the following year they voted to use the present hospital site for the new building.

The city has a \$2,500,000 to construct the hospital.

Fraser Firm Loses Appeal

LONDON, Oct. 13.—(CP)—The judicial committee of the Privy Council today dismissed an appeal by D. S. Fraser and Co., Ltd., an Edmonton lumber and mill company, relating to assessment of income tax.

The law lords upheld a judgment of the Exchequer Chamber of the House of Lords, 1947 and ruled that the company should pay the costs of appeal.

The judgment said an attempt to deduct a million dollars from the company's income tax was "unfairly discriminated" against the company by refusing to allow a deduction from its income tax assessment for exhaustion of its timber limits in the Northwest.

In the opinion of the Privy Council, the company had failed to establish that the timber limits were exhausted.

The judicial committee heard the appeal last July and reserved their decision.

The appeal was described as a "test" in affecting several Alberta lumber companies.

Revised Pension Plan Announced By Eaton's

John David Eaton, president of The T. Eaton Company Limited, announced today that a new contributory retirement annuity plan will be inaugurated covering all full-time employees of the company, its subsidiaries and associated companies.

The new plan will cover more than 20 years of service. The company has been paying retirement allowances to its employees, provided wholly by the company, for many millions of dollars have been expended in this way since 1928.

Former employees who have reached retirement age and length of service are receiving such allowances.

With a view to providing increased pensions for future service and assisting future workers to save on a more substantial saving for the time of retirement, the company has decided to provide on a co-operative basis, with employee contributing approximately five per cent of their earnings and the company a sum which will equal total contributions of the employees.

COMPANY AID CITED

The cost of paying annuities with respect to past service will be borne wholly by the company.

The new retirement annuity plan will be self-administered and the administration costs will be provided by the company.

To pay the benefits provided for in the plan in respect to past and future service will require a fund, the pension by the company of more than \$100,000 during the early years of its operation.

The normal retirement age is 65 years for men and 60 years for women, in each case 25 years after the date of last service.

AFTER FIVE YEARS

Employees may enter the plan after five years continuous service, and upon attaining the age of 55 years.

All employees joining the Eaton staff after Oct. 13 will be required to join the plan upon becoming employees.

Retirement annuities will be paid under the above conditions for 25 years after the date of retirement date, either by choice or because of illness or disability.

Employees who have accumulated annuities in monthly instalments for 10 years will be paid in full at the time of their retirement.

If an employee dies before retirement, he or she will receive a lump sum payment prior to death, monthly benefits will be continued to the beneficiary until a total of 60 months has been completed.

RETURN ARRANGED

Provision is made for the return, with accumulated interest, of the contributions of employees whose employment is terminated before they reach normal retirement age.

In speaking of the plan, Mr. Eaton said: "This plan has been in existence for more than 20 years. It has been a tremendous task with more than 80,000 full-time employees involved in varying ages and length of service and with a large amount of information to be gathered from all across Canada before the requirements could be determined and a plan designed. It was necessary that we worked out a plan which would be selected the most suitable. Government assistance was obtained before any announcement could be made."

"We regard this plan as a great step forward in our constant endeavour to make the best possible choice for a lifetime career by helping and encouraging those who work for us to prepare for a continuing income when they retire from active service."

20 Provinces Urged By Queen's Professor

TORONTO, Oct. 13.—(CP)—Canada's big provinces behave like Imperial powers and should be carved up, says A. R. M. Lower, professor of history at Queen's University, in an article in the current issue of Maclean's Magazine.

Prof. Lower rejects the idea that this country has too many governments. He would like to see a spin up into 19 provinces plus a 20th—Newfoundland when she comes in. Amalgamation into larger and fewer provinces would simply incorporate sections which would take on national characteristics and build up diverse alliances.

Lewis Raps Dewey Support Of Labor Act

CINCINNATI, Oct. 13.—(AP)—John L. Lewis closed the United Mine Workers' convention yesterday with a crack at Republican Thomas E. Dewey for defending the Taft-Hartley Act.

Lewis referred to Dewey as "some politician" who had spoken recently in favor of the Labor Management Relations Act. The remark jolted many of the 3,000 delegates, who had listened for more than a week to speeches attacking Dewey's Democratic opponent, President Truman.

There was laughter when Lewis said of Dewey:

"That man just never read the act."

The Republican presidential candidate last night at Pittsburgh said the act preserved labor's right to band together.

"The act does just the reverse," said Lewis.

Lewis, whose salary was added to \$500,000 a year at this convention, was given a pen set and a gold watch from two locals today. The next scheduled convention will be in 1952 when Lewis will be 72 years old.
